

ALI ABBAS

Computer Information Technology (CIT) Student

Android Developer (Kotlin) | Aspiring IT Professional

Kamalia, Pakistan · +92 310 6449454 · ali129kml@gmail.com · Typing: 42 WPM

GITHUB PORTFOLIO
github.com/ali25cit235

TECHNICAL SKILLS

- Android Development (Kotlin) — Intermediate
- Kotlin — Intermediate
- Python — Advanced
- HTML, CSS, JavaScript — Intermediate
- Windows Installation & OS Support — Intermediate
- Hardware & Software Troubleshooting — Intermediate
- Computer Maintenance — Intermediate
- MS Word & MS Excel — Basic
- Typing, Email & Internet — Intermediate
- Office Administration — Basic

LANGUAGES

- Urdu — Native
- Punjabi — Native
- English — Intermediate

AREAS OF FOCUS

- Android Apps
- IT Troubleshooting
- Windows Utilities
- Network Privacy

TOOLS & PROJECT STACK

Stack: Kotlin, XML, Python, PySocks, dnslib, Custom Tkinter, PowerShell, DNS/DoH & Firewall Rules.

Tools: Android Studio, Git/GitHub, MS Office & AI Tools.

WORKING STYLE

- **Practical diagnostic:** check hardware & software causes before fixing.
- **Safe configuration:** test system changes with a clear restore path.
- **Project-driven:** build small Kotlin & Python tools to learn by doing.

"Better Skills, Bigger Opportunities."

PROFESSIONAL SUMMARY

Computer Information Technology (CIT) student with practical experience in computer hardware and software troubleshooting, Windows installation, and computer maintenance. Learning Android app development using Kotlin and building small Python networking projects. Seeking entry-level IT and Android development opportunities to grow my skills and career.

PRACTICAL HANDS-ON TECHNICAL EXPERIENCE

Hands-on technical practice in computer hardware and software support — FAMILY COMPUTER SHOP

- Troubleshoot common PC hardware/software issues and assist with component installation & basic repairs.
- Install Windows, resolve everyday operating-system problems and support routine computer maintenance.
- Help with practical tasks such as RAM replacement, cable checks and preparing systems for use.

EDUCATION

Diploma of Associate Engineering (DAE) — CIT — FIRST-YEAR RESULT: 1065/1200 (87.5%)
Government College of Technology, Kamalia
Started: 2025 Duration: 3 years

Matriculation — COMPLETED: 2025
BISE Faisalabad
Marks: Approximately 810/1200 (67.5%)

COURSES & LEARNING

Office Management — ✓ COMPLETED
GCT Kamalia · Word, Excel, PowerPoint, AI tools

Python Programming — IN PROGRESS
Currently learning independently

Operating Systems — IN PROGRESS
Currently learning independently

PROJECTS

Android Development (Kotlin) & Dynamic Island Prototype — GITHUB.COM/ALI25CIT235

- Building modern Android apps including an expandable Dynamic Island status/notification overlay prototype.
- Exploring UI/UX, Firebase, and API integration through real-world mini projects.

NetShield DNS Guard (Python · Windows Utility) — GITHUB.COM/ALI25CIT235-BOOP/NETSHIELD-DNS-GUARD

- Desktop utility tunneling DNS-over-HTTPS (DoH) via SOCKS proxy with TCP/UDP port 53 firewall rules & DNS restore.

Web Development Projects

- Flavourz Restaurant Demo — flavourz-restaurant-demo.netlify.app
- Sahiwal Broast Demo — sahiwal-broast-demo.pages.dev
- Apex Auto Detailing Demo — apex-auto-detailing-demo.pages.dev

CAREER OBJECTIVE

Seeking entry-level IT internships and technology opportunities to apply existing technical knowledge, gain practical experience, and continue developing Android development, programming, and troubleshooting skills with Kotlin.
